

IN THE SPECIFICATION:

Please amend the two paragraphs that extend from page 16, line 22 through page 17, line 13 as follows:

Figure 6 is an example of the accessibility service for visually impaired people. In this example, visually impaired user **601** is attempting to access the Yahoo website **604**. This user is using a computer **610** that has an intelligent agent **611** that activates a mirror website that was created earlier. The mirror website created earlier is described in the incorporated U.S. Patent No. 6,665,642 B2 Application No. _____ (Attorney Docket No. YOR9-2000-0667) issued on December 16, 2003. The mirror web site gives the user the ability to access the same information as on the original website but is enhanced for use with the accessibility tools provided by the present invention. The user may click on the Yahoo banners through the screen reader website **602**. This is connected to the payment system server **604**. Through the payment system server **604** the provider of mirror website **602** receives a payment for each click that a user makes on banners on the website, or a percent from all the user's purchases on the website.

Figure 7 gives another example of how the present invention may be used to provide accessibility service to a disabled person. In this example, a paralyzed person **700** is watching television **701** and controlling it with his voice through the Via VoiceTM program **702**. Via VoiceTM activates different channels on the television and allows for the watching of movies. For example, a movie **707** on channel **706** is broadcast by a movie company **705**. The payment service 704 monitors ~~service 404, 604 monitors~~ that the disabled person can watch the movie that is playing and makes sure that part of the payment for the movie goes to IBM **703** for providing the Via VoiceTM service to the paralyzed person **700**.
